★ PROFESSIONAL SUMMARY

Data Analyst with a B.A. in Philosophy & Sociology and strong training in data management and analysis. I am trained in SQL, Power BI, and Excel. I have a background in problem-solving, critical thinking, and project management skills, developed through leadership roles and hands-on project execution. I am passionate about uncovering insights from data to tell narratives that seek to improve organisational performance and decision-making.

🏢 PROFESSIONAL EXPERIENCE

Splendor Analytics, Abuja, Nigeria.

Jul 2025 - Oct 2025

Data Analyst and Business Intelligence Analyst

Completed multiple client projects using data analysis to solve business problems across industries. Focus areas included Business Intelligence, Customer Analytics, and Sales Performance, using real-world datasets and case studies. This was part of a 4-months accelerator programme.

- Wrote and optimized SQL queries to extract and transform data for key business reports, identifying key trends and growth opportunities, improving data retrieval efficiency by 30%
- Built and maintained several Power BI dashboards, providing senior stakeholders with real-time insights into departmental performance.
- Collaborated with a cross-functional team to gather requirements and develop a new suite of KPI dashboards, leading to a 10% increase in reporting accuracy.
- Supported the rollout of new data solutions, creating comprehensive documentation and providing training to end-users to ensure smooth adoption.

HNG Tech, Nigeria.

Oct 2025 – Dec 2025

Data Analyst Intern

An intensive, 8-week Data Analysis Track with a focus on real-world problem solving collaborating with a distributed team, and delivering actionable insights through dashboards and reports.

- Cleaned, transformed, and analyzed datasets using Python, SQL, and Excel.
- Built and published Power BI dashboards and weekly reports to communicate insights to mentors and team members.
- Collaborated with a distributed team, gathering requirements and delivering solutions under strict deadlines.
- Gained hands-on experience in data storytelling, KPI tracking, and stakeholder communication.

🎓 EDUCATION & TRAINING

Bachelor of Arts in Philosophy and Sociology

Obafemi Awolowo University

Relevant Coursework: Logic and Critical Thinking, Social Research Methods, Statistics for Social Sciences, Ethics and Moral Philosophy

🔧 KEY SKILLS

Programming & Databases: SQL (MySQL, SQL Server), DAX (Power BI), Python (Pandas) in Jupyter Notebook, R Programming

Data Visualization & Reporting: Power BI (Dashboards & Paginated Reports), Tableau (Basic Dashboard Building), Microsoft Excel (Pivot Tables, Formulas, Power Query), PowerPoint

Business & Analytical Skills: Data Cleaning & Quality Assurance, Statistical Reporting & Basic Forecasting, KPI Definition & Tracking, Stakeholder Communication & Requirements Gathering, Data Storytelling

📁 PROJECTS

Marketing Campaign Analysis

Analyzed multi-channel marketing campaign performance to measure ROI, conversion rates, and customer acquisition costs, recommending the most effective strategies.

Tools Used: SQL, Power BI, Microsoft Excel

GitHub Link: <https://github.com/TadeDerhbi/Marketing-Campaign-Analysis>

Customer Churn Prediction & Analysis

Examined customer datasets to identify churn patterns and risk factors, generating actionable insights for retention and loyalty strategies.

Tools Used: SQL, Power BI, Microsoft Excel

GitHub Link: <https://github.com/TadeDerhbi/CustomerChurn-Prediction>

Financial Budget Analysis

Conducted financial data analysis on revenue and expenses to detect inefficiencies, optimize budget allocation, and support strategic decision-making.

Tools Used: SQL, Power BI, Microsoft Excel

GitHub Link: <https://github.com/TadeDerhbi/FinancialBudget-Analysis>

HR Employee Analysis

Evaluated HR data including employee turnover, promotions, and satisfaction trends, providing insights to enhance retention and workforce planning.

Tools Used: SQL, Power BI, Microsoft Excel

GitHub Link: <https://github.com/TadeDerhbi/Human-Resource-Employee-Analysis>

★ **STRENGTHS**

Team Collaboration	Problem Solving	Stakeholder Engagement	Leadership	Analytical Thinking
Critical Thinking	Communication Skills	Collaborative Analysis	Attention to Detail
